

Doodle helps reduce teacher workload!

Case study: Brookfield Primary Academy, Surrey

Brookfield Primary Academy use Doodle as a digital homework solution.

We spoke to Eva, the school's Year 3 Lead, about how it has helped to reduce teacher workloads and boost pupils' independence.

76

students achieved 30 day streaks (or more)

Hi Eva! Please could you give us a brief overview of how you use Doodle in your school?

We set DoodleMaths and DoodleEnglish for homework every week. Some year groups use them as early morning work and others use it in their maths lessons.

We have a board with the top three Doodling classes. We circulate a trophy around the school when a class wins that week; I give them certificates when they reach a 100-day streak or more. I Tweet the results every week, and they also go in our newsletter.

students achieved 100 day streaks (or more)

Has Doodle had an impact on pupils' confidence and attainment?

Children are becoming independent learners. The fact that Doodle is tailored to each child's ability really works well and gives them confidence to do it by themselves whilst learning.

"Children are becoming independent learners. The fact that Doodle is tailored to each child's ability really works well and gives them confidence to use it by themselves."

— Eva, Year 3 Lead, Brookfield Primary Academy

And finally, has Doodle helped to reduce teacher workloads?

It has reduced work in terms of homework setting. Staff are able to see who has done their homework and how well they performed. They can also see who is in the green zone (earned their target number of stars set by Doodle) and who needs to practise a little more.
