# Kognity

Kognity in numbers

Kognity provides interactive curriculum delivered in an innovative learning platform created around the Next Generation Science Standards. Created in collaboration with teachers and NGSS specialists, our flexible teaching framework allows educators to build science lessons where students take an active role in their learning, develop an ability to learn and nurture their curiosity about the world around them. Students will have access to engaging, interactive science content based on the 5E model to drive inquiry-based, skills-based learning.

An award-winning learning platform
