

A Little Bridge ... for everyone to learn English!

Qualitative Feedback

'I started three of the refugee children on Little Bridge today and it was a triumph. I had such a big hug with the thank yous as I was leaving. The parents joined in too. I can't thank you enough. It's going to be a terrific learning tool.'

- Bath Welcomes Refugees

'Since getting access to Little Bridge, my daughters have spent hours on the program. They are learning so quickly, their school has noticed. But they're not focusing on learning English; it's something that comes while they're playing. The program helps them understand so much more than the language. It introduces the culture, the people, the life and they want to join this community. My wife is learning English with Little Bridge too! ... It's so much more than learning and games. The girls are getting up at 7 a.m. and have been on it the whole weekend.'
