## Impact Story

# A school looking for a change

With multiple systems, they wanted an all in one simple solution.

“

*Our website was difficult to maintain and required some technical knowledge. We wanted a system that could be accessed by everyone and was quick and easy to update.*

*We wanted to streamline our office processes to save time and money; we had very recently had a new business manager and she was keen to go paperless and cashless. School Spider allowed us to do this one with system.*

# Taking the leap

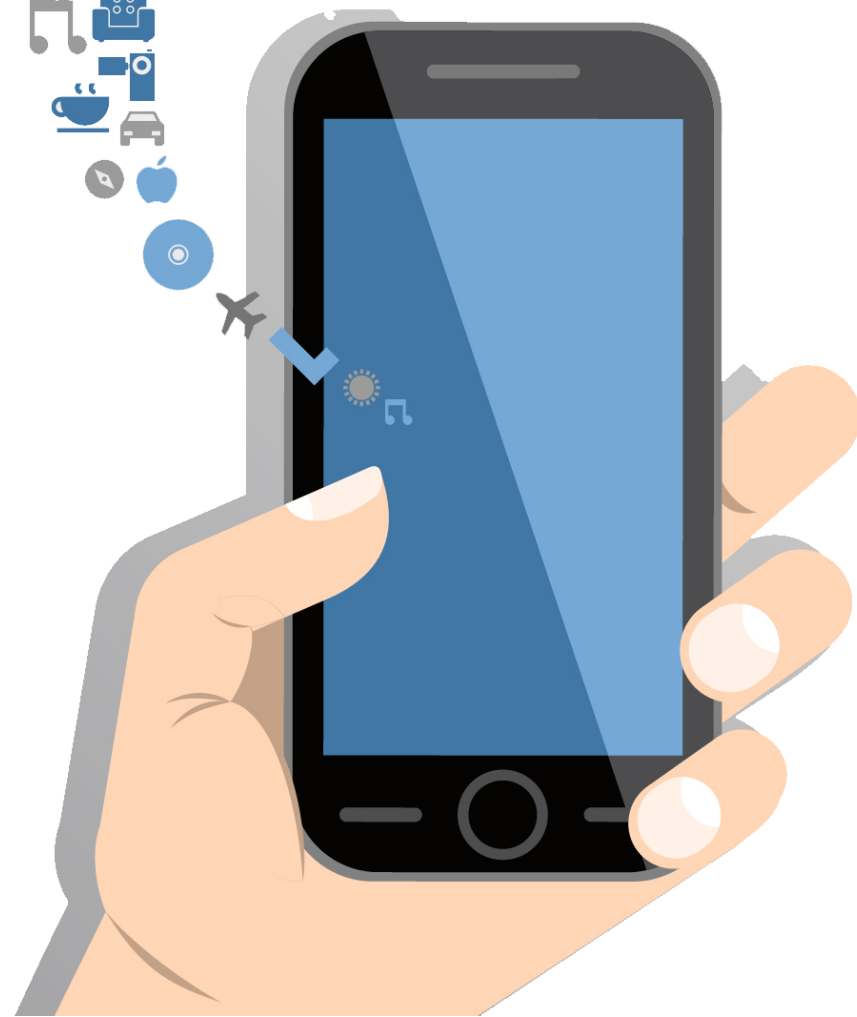

Ashchurch Primary School decided to join School Spider in May 2017

*"The big draw of School Spider is that everything is under one umbrella - website, app, communication, payments all 'under one roof'. So easy to get parents on board and staff/office/students all using the same system."*

ICT Lead, Ashchurch Primary School

“The quick message feature means that parents get the message on the app, in their email and via text - no more missed messages! The email feature allows you to see exactly who has read the email and to chase accordingly.

“

# The rise of paperless schools

More schools are deciding to ditch the paper and become paperless. Ashchurch Primary School was next to make the change.

**School** Spider

“

*As a direct result of implementing School Spider, our school office is now completely paper and cash free. All parental communication is via School Spider saving time, money and is better for the environment.*

## How have we helped?

*" School Spider has combined 3-4 previous systems in one. The software is intuitive and easy to use. One of their best features is their responsiveness to feedback. They are keen to hear feedback from those using the software daily so that they can make updates and improvements to make their offering even better. A great product run by really nice people! "*
